Presenting Complaint / Principal diagnosis:
Huntingdon's Disease

INSTRUCTIONS FOR LEARNERS

Watch the first consultation. With reference to both the notes and what you see and hear, try to identify appropriate rubrics and undertake a short keynote repertorisation. Select a prescription for the case and provide reasons for your choice. Afterwards look at the review notes and watch the short review video clip so that you can discuss the outcomes at tutorial.

Baillieston,
Glasgow. G69.

Dear Doctor,

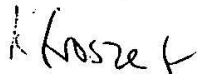

Re: Diane B , D.O.B. Age: 30 years
Street, Greenfield, Glasgow. 6XG.

This girl had a family history of Huntingdons Chorea and started developing symptoms herself in January . Her main symptoms are of facial and truncal choreiform movements with lesser movement in the limb she also has a choreic gate. She is on no regular medication at present.

Diane recently saw a television programme about Homeopathy and wondered if this line of treatment would help her.

Thank you for seeing her.

Yours sincerely,

Dr. Katherine Grosset.

11th April,

Dr. Katherine Grosset,
Shettleston Health Centre,
420 Old Shettleston Road,
Glasgow. G32 7AS.

Dear Dr. Grosset,

Re Miss Diane B , 56 Kxxxxxxxxxx
St.,Glasgow - D.O.B.

Thank you for referring this girl to the Homoeopathic Out-Patient clinic. In spite of the progressive nature of her problem, she remains cheerful and positive in her outlook. The Huntingdons Chorea is starting to manifest in most muscle groups, but most particularly in the face and trunk. In recent months her speech has begun to deteriorate due to increasing incoordination in the voluntary muscles of phonation.

It is unlikely that we will substantially alter the disease progression, due to the inexorable neurological impairment associated with Huntingdons Chorea. I hope, however, that some relief from the most troublesome motor manifestations may be possible. Treatment has been started with homoeopathic 30C and 200C. A review in four weeks has been arranged.

Yours sincerely,

Dr. R.Malcolm.

MB. ChB. BA. MF Hom.

FIRST REVIEW

re. MISS DIANE B →

25/05

Constipation > | Mood up + down
(Hurdwitting) >

Movement not so bad in bed.

Still some choreic movements in face

No apparition from powder.

Seas to come round in the morning

Jumping movements in bed have died down a bit
